Car second Com

RAVENNA, O. NOVEMBER 5, 1868.

The Election-Radicalism Vic

torious. tion for President and Vice President took place on Tuesday, in so much of the United States of Africa and America, as were permitted by the participate in that great farce. The result, briefly stated, is that the Radifour years from the fourth of March next, Gen. Grant and Schuvler Colfax. will be the President and Vice President of the American amalgum. The people have voted to sustain the policy of the Radical destructives-its doctrines of negro equality; its military despotisms; its disfranchisement of intelligent white men and enfranchisement of ignorant barbarous negroes; its oppression and degradation of the laboring producing poor men, and its favoritism of the bondholding aristocracy; its system of uncount. unjust and oppressive taxation; its proposition to fund the national debt and make it payable, principal and interest, in gold, and to perpetuate it for all time to come. This is the real significance of this radical victory; this is what our political opponents are shorting themselves hoarse over. Well If many of those who have labored to bring about these results can enjoy the fruits of the victory, the Democracy will endeavor to endure it, until the evil shall become so apparent to the people that they will demand a change.

the slight consolation that, if we are not victorious neither are we hoarse from shouting over the triumph—if all who knew them, and the event of Bentein on the same day, has been tenth to his fifteenth year, is a skillful for Hartford, it says, was between we have not the honors, neither have, their marriage had been looked for surrendered to the military authorities we the responsibilities and duties of these high offices upon our hands, and we can patiently await the progress of affairs until the people, having had a surfeit of Radical rule, will demand a change of rulers and of policy.

Below we give the result so far as we are able to obtain it up to the hour which we gather from the Radical

morning papers : THE RESULT PORTAGE COUNTY. The following table shows the vote in this county on Tuesday, by which it will be seen that the Republican majority is 1247, being a gain of 165 since the October election :

> FRUIT CULTURE IN SOUTH CAROLINA. -Mr. Derby, a well known publisher of New York, bought a fruit farm at Aiken, South Carolina, two years ago. Mr. Derby was not a practical farmer. but he went to work vigorously, and although he knew as little of pomology as farming, he managed to make \$500 a month out of his \$15,000 investmainly derived from peaches, apples and grapes. Mr. Derby's success, like that of the thrifty Irish and Germans who make their farms look like gardens, proves that some things can be done as well as others.

sions are no longer profitable." THE Radicals of the Ninth Ohio Congressional district are revenging themselves on leading Democrats of that district for beating Bill Gibson, by arresting them on charge of procuring fraudulent naturalization papers. Among others they have arrested Hon. E. F. Dickinson, the man who beat Gibson, by a warrant from the United States District Court. The tribunal before which they have taken their case shows how sensible they themselves are of its weakness. There is no doubt but that Mr. Dickinson will encharges that have been made against appointment .- Dayton Ledger.

The Pulse. The pulse of a healthy grown person beats seventy times in a minute; there may be good health down to sixty: there is a disease, the machine is working too fast; it is wearing itself out; where, and the body is feeding on itself as in consumption' where the pulse is always quick, that is over seventy. chances of cure, until it reaches one hundred and ten or one hundred and even a slight cough, the lungs are af-

Every intelligent person owes it to himself to learn from his family physician how to ascertain the pulse in health; then by comparing it with what it is when ailing, he may have some idea of the urgency of his own case, and it will be an important guide and costs from five to six cents per to the physician. Parents ought to foot; burnt brick ten dollars per thouknow the healthy pulse of each child: a peculiarly slow or fast pulse, and the

There are pulses all over the body hundred and forty and over. A healthy pulse imparts to the finger a feeling as of a woolen string; in fever it feels harder, like a silk thread: if there is inflamation, which is always dangerous, it beats fast, spiteful and hard, as if a fine wire was throbbing against the finger. When the pulse beats irregularly, as if it lost a beat, then hurried to make it up, there is something the matter with the heart. But however unnatural you may think the pulse is, do not worry about it, take uothing, do nothing, except by
